

Commercial & Industrial Waste Collection & Recycling Services

A. E. Burgess & Sons Ltd is a high quality, low cost, trade and commercial waste collection service provider operating from Ulverscroft Road, Leicester. Our commercial waste collection and recycling service is a mobile compaction service, with the containers coming in a range of sizes suitable for light commercial and industrial waste.

Our waste containers are multi purpose and suit easily compactable waste like cardboard, paper, plastic and general office waste, the containers are lifted hydraulically on site on a pre-arranged schedule to suit the customer's needs, as often as you like. Because we empty on site you will always have your bin available.

We also take care of all the waste documentation, we provide a full audit, with disposal carried out at our Materials Recycling Facility.

What Will We Collect?

We will collect most waste types and in most cases are able to offer recycling alternatives to landfill. However, please contact us for information on hazardous waste like asbestos, paint and solvent containers or aerosols.

This is a specialised field but we are able to offer solutions in conjunction with general waste collection.

Who can use our service?

Our services are available to both private and public sectors in Leicester. We are conveniently located at Ulverscroft Road Leicester with easy access to all of the industrial estates and commercial areas. We can therefore ensure the safe and effective disposal and recycling of your waste.

We provide a full range of waste collection and disposal services including;

- Refuse Collection using a range of containers to suit your needs.
- Containers for segregation and recycling of packaging waste.
 - A confidential waste paper service.
- Compactors for those companies with large amounts of waste.
 - Skip hire and Roll-on-Off containers.
