

RECYCLE, IF NOT NOW THEN WHEN?

A.E. Burgess & Sons Ltd was founded in 1850 by Alfred and Ernest Burgess and is still owned and run by the Burgess family to this day.

As a leading Leicestershire Waste Management company and scrap metal merchant we provide a professional approach for both the public and trade sector whilst maintaining a friendly and personal service.

A. E. Burgess provide a comprehensive waste management and collection service. Our aim is to help your company minimise waste and recycle more by segregating different waste materials at source, through the use of multiple skips, bins and/or containers appropriate to your business needs. Our service is designed to reduce your total waste costs by offering a recycling option where it is economically and environmentally beneficial.

A. E. Burgess believe performance and service are as important to you as price, which begins with professional and responsive waste collection. Our experienced staff operate 25 vehicles all fitted with the latest radio communication and vehicle tracking systems allowing us to provide a fast and efficient service at all times.

Recycling is a major part of global waste management and A. E. Burgess are at the forefront of investment in this area to recycle more of your waste. We are currently recycling 87% of all waste brought to our facilities and are striving to improve on this figure.

A.E. Burgess & Sons will collect your waste and will transport it to our Materials Recycling Facility, where it will be sorted, segregated and baled for reprocessing plants in the UK and for export.

- Waste Collection and Recycling
- Reduced Operating Costs
- Improved Environmental Performance
- Maximised Waste Savings

LEICESTERSHIRE WASTE CONTAINER HIRE
COLLECTION & RECYCLING

I would like to take this opportunity to introduce A.E. Burgess a leading provider of independent waste collection and recycling services across Leicestershire.

A.E. Burgess provides an entirely new approach to waste disposal, with the focus firmly on recycling. We re-use over 80% of the waste we collect and by reducing the amount of material being sent to landfill we can provide a very cost efficient service.

A.E. Burgess provides advice on the most cost-effective methods of disposal and recycling of waste materials. Using our diverse container types we will provide the most cost effective and economical service, with the main emphasis being placed on recycling and separation where possible.

What do A.E. Burgess Offer?

Professionally managed fleet of vehicles

Efficiently managed team of waste transport coordinators.

A full range of containment options from skips and bins to Roll-on Roll-off containers

Professionally managed Materials Recycling Facility.

Monthly waste collection and recycling reports

Fully compliant with Environmental Agency "Duty of Care",

License No **CB/LP3115DK**

Where possible we are keen to encourage customers to undertake waste material segregation on site. A.E. Burgess will advise and assist in reducing waste and the cost of disposal.

A.E. Burgess are a Registered Waste carrier and comply with all current legislation to protect your interest as a producer of waste under the SWMP and 'Duty of Care' Regulations.
